

The Ottawa region attracts some of the most highly skilled and educated newcomers in Canada. International Medical Health Professionals bring a wide variety of skills, experience and unique abilities that can benefit Ottawa's healthcare community. The Catholic Centre for Immigrants (CCI) Career Transitions Program can help you connect with skilled, experienced health professionals who are ready to make a contribution to your organization.

The CCI Career Transitions program is delivered in partnership with World Skills Ottawa and funded by the Ontario Ministry of Citizenship and Immigration. There is no cost to employers for accessing services and our focus is solely on connecting employers with the right candidates for the right position. A Career Transitions Job Developer will work with your organization to understand your needs and potentially save time and resources by providing a pool of qualified candidates from our roster of over 400 professionals.

Our Talent Pool

- Our candidates are all internationally trained and experienced in a variety of healthcare roles
- Our candidates complete a 35-hour workshop series on the Canadian healthcare sector and Canadian workplace culture
- Our candidates are prepared to transfer their wealth of knowledge and experience into new roles
- Our candidates work closely with the Job Development team to develop strategies for success during the application, interview and retention process

How it Works

- Career Transitions program staff work with you to determine the needs of your organization
- Job Developers will pre-screen candidates from our database to find potential applicants that fit your needs
- Only qualified candidates that we feel will be a good fit will be forwarded to your organization
- Our focus is not on filling a role but finding a good fit for your organization
